

UltraZin Zinc

Innovative microencapsulation technology; enhanced absorption zinc for broad physiological support, including immune function and emotional wellness[†]

INDICATIONS

- Ages 18 and up
- Immune system function support[†]

BENEFITS

- Protects zinc in gastrointestinal lumen, increases dissolvability, and easily crosses membranes
- Promotes immune defenses, enhancing healthy immune cell proliferation, activation and function[†]
- Supports collagen formation and healthy tissue development[†]

FEATURES

- Enhanced absorption and bioavailability
- Made with high-quality vegan ingredients backed by verifiable science

VERIFIABLE SCIENCE

UltraZin Zinc utilizes an innovative microencapsulation technology to enhance the absorption and bioavailability of zinc. This technology creates a phospholipid bilayer around the mineral similar to a liposome, increasing solubility and absorbability.¹ Promotes immune defenses, promoting healthy immune cell proliferation, activation and function.^{2,3} Zinc plays a fundamental role in collagen formation and healthy tissue development.^{4†}

Liposome-like microencapsulation enhances absorption and allows the mineral to pass undamaged through the gastrointestinal environment

Stabilization is enhanced between the water (aqueous phase) and oil (fatty phase) with sucrose esters, which form a bilayer around the mineral core. Tricalcium phosphate helps maintain the molecular bonds in this structure. The bilayer has an outer membrane that is comparable in structure and properties to cell membranes, which allows for ease of transport into cellular membranes and improved absorption. By sequestering the minerals away from the mucous membranes, this form also prevents the minerals from premature degradation and supports tolerability.

SUGGESTED USE

As a dietary supplement, take 1 capsule daily, with a meal.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- Zinc is derived from earthen ore.
- Rice starch and rice flour are derived from *Oryza sativa* seed.
- Hypoallergenic plant fiber is derived from pine cellulose.
- Lecithin is derived from sunflower.

NOTES

Size 3 caps

Bottle count 90

Order codes UZ9

Bottle size 75 cc

UltraZin Zinc

Innovative microencapsulation technology; enhanced absorption zinc for broad physiological support, including immune function and emotional wellness[†]

SUPPLEMENT FACTS

1 capsule daily, with a meal.

Each (size 3) vegetarian capsule contains:

Zinc (as microencapsulated zinc) 30 mg

Other ingredients: microencapsulated zinc (zinc oxide, pregelatinized rice starch, sucrose esters of fatty acids, sunflower lecithin, tricalcium phosphate, rice flour), vegetarian capsule (cellulose, water)
