

Astaxanthin

Stable, fat-soluble antioxidant; skin, joint and eye health[†]

INDICATIONS

- Ages 18 and up
- Antioxidant protection for the skin and retina[†]
- Joint comfort[†]

BENEFITS

- Supports the skin's natural antioxidant defenses against free radicals from sun exposure[†]
- Offers protection for eye and brain health[†]
- Supports joint and immune function[†]

FEATURES

- Derived from *Haematococcus pluvialis* microalgae
- Contains carotenoids lutein and beta carotene
- Made with high-quality ingredients backed by verifiable science

VERIFIABLE SCIENCE

Derived from *Haematococcus pluvialis* microalgae cultivated under pristine conditions, esterified astaxanthin is a stable, fat-soluble antioxidant from the carotenoid family. Astaxanthin protects the phospholipid membranes of cells from oxidative damage.¹ In studies, it has demonstrated the ability to cross the blood-brain barrier and protect the retina, suggesting its potential for supporting the brain and nervous system from free radical damage.^{2,3} Initial trials with astaxanthin suggest that it may support the skin's natural antioxidant defenses against free radicals induced by sun exposure.³ In a human clinical evaluation, supplementation with astaxanthin provided enhanced antioxidant protection for the skin.^{4,5} Research suggests that astaxanthin may support athletic performance, as well as joint function and comfort after strenuous exercise.⁶ Additional studies suggest astaxanthin's immune, cellular and cardiovascular support potential.^{7-9†}

SUGGESTED USE

As a dietary supplement, take 1 capsule, 1-3 times daily, with meals.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- Astaxanthin is derived from *Haematococcus pluvialis* microalgae and cultivated under highly controlled conditions
- In addition to astaxanthin, each softgel typically provides 40 mcg naturally occurring lutein and 65 IU naturally occurring vitamin A as beta carotene

NOTES

Size 7.5 softgel

Bottle count 60/120

Order codes AST6/AST1

Bottle size 120 cc/ 190 cc
