# Unlocking the full power of the microbiome

Did you know that the gut microbiome secretes more than 30 hormones, neurotransmitters, and vitamins that play a role in human health?

The state of your gut microbiome impacts more than just digestion—it also influences immune, heart, and brain health, along with other major bodily functions.

As pioneers of spore-based probiotics, Microbiome Labs is dedicated to combining the power of biology with the rigor of science to develop research-backed solutions formulated with clinically studied ingredients that enable holistic health and well-being.

With more than 10 years of experience,  
we have the expertise to:

Navigate the human  
biological system

Engineer health at the  
microscopic level

Bridge therapeutic gaps to  
achieve total wellness

# Big picture health starts small

Think of the gut microbiome as a tiny ecosystem—inhabited by trillions of microscopic organisms—located inside the intestines. These microorganisms include more than 1,000 species of bacteria that interact and assist with body functions.

## BRAIN

Connects through the nervous system influencing mood, cognition, and mental health

## SKIN

Imbalance impacts immunity and inflammation which can trigger skin conditions

## IMMUNITY

Good bacteria help train and develop an adaptive immune system, supporting a healthy immune response to external challenges

## HEART

Bacteria in the gut can influence cholesterol metabolism and other factors associated with cardiovascular health

## METABOLIC

The gut microbiome contributes to body weight, insulin function, glucose metabolism, and cardio-metabolic factors

## DIGESTION

Helps break down complex carbohydrates, proteins, and fats to create microbial metabolites that can act locally and systemically

# A balance of biological innovation and scientific validation

Years ago, Microbiome Labs set out to challenge the status quo of traditional health and unlock the full potential of the microbiome. Since our founding, thousands of practitioners have relied on our groundbreaking products for their patients, changing more than 1,176,552 lives—and counting.

30-40 trillion  
**microbes**  
live inside the gut microbiome

MegaSporeBiotic™  
Bottles Sold since 2017

**We're not just backed by science—we're driven by it.**

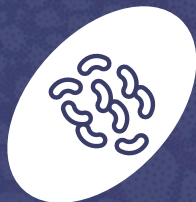

Unlike other probiotic companies, we're committed to and investing in results-driven science and research—because proving is better than assuming.

- ✓ Total control of the innovation and formulation process, from discovery to final product.
- ✓ Access to 147,000 microbes (including 3,600 spores), 13 million enzymes, and proprietary vitamin K2.
- ✓ Our clinical research includes studies on complete formulations—not just single ingredients.

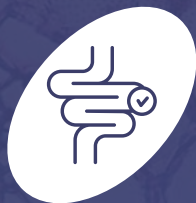

We're the originators of spore-based probiotics and the first to clinically test and scientifically validate an all-spore probiotic formula

# Small marvels that transform lives

Contains 5 strains of *Bacillus* spores derived directly from a healthy human gut

Designed to survive the gastric environment and support colonization

Efficacy of complete formula are backed by 13+ peer-reviewed studies

## Biome Bit

Our spores have a bi-phasic life cycle: they remain dormant in harsh digestive environments and become active and germinate in more favorable conditions of the intestine.

## WOMEN'S HEALTH

Whole health doesn't end with the gut—women have unique health needs that are specific to their biology throughout their lifetime. The vaginal microbiome playing a key role in pregnancy, menopause, and anything related to their hormonal cycles.

PAGE  
10

## GASTROINTESTINAL HEALTH

These products are the foundational MVPs of Microbiome Labs. They form the basic protocols for supporting and maintaining a healthy and well-functioning gut.

PAGE  
16

## METABOLIC SUPPORT

Formulated with naturally sourced vitamin K2 for healthy bone, heart, nerve, mitochondrial and metabolic function.

PAGE  
17

## DIGESTIVE SUPPORT

Our probiotics and digestive enzymes reduce occasional gas and bloating, promote normal digestion, bowel regularity, and gastric balance—helping the gut continue to function as it should.

PAGE  
18

## SKIN SUPPORT

Probiotics help modify the intestinal microbes which can regulate immune responses and inflammation factors, which influence skin cells—improving the skin's natural microbial balance and total body health.

PAGE  
18

## COGNITIVE SUPPORT

Our cognitive products support gut-brain communication network with *Bifidobacterium longum* 1714™ to address occasional stress, mild mood changes, low energy, fatigue, and sleeplessness.

PAGE  
19

## IMMUNE SUPPORT

Our immune formulas promote a balanced immune and inflammatory response, maintain gut barrier function, and healthy digestion.

PAGE  
21

## TOTAL GUT RESTORATION PROTOCOL

This uniquely designed system targets all three key aspects of gut health.

THE NEWEST ADDITIONS TO  
OUR PRODUCT FAMILY

## Pregnancy Support & Vaginal Balance

Whole health does not end with the gut—women have unique health needs that are specific to their biology throughout their lifetime. The vaginal microbiome playing a key role in pregnancy, menopause, and anything related to their hormonal cycles.

Pregnancy Support is an innovative, probiotic-powered blend with clinically studied ingredients, designed to support a healthy mother and baby from conception through pregnancy and beyond. It reduces vaginal discomfort caused by bacterial and yeast imbalances. It also benefits the developing infant, including supporting healthy skin development and sharing essential beneficial bacteria through breast milk.\*\*

Vaginal Balance is an innovative, probiotic-powered blend with clinically studied ingredients, designed to optimize women's vaginal, urinary tract, immune, and digestive health. Vaginal Balance is formulated with Lactobacillus probiotics, the most common bacterial species found in a healthy vagina, and Cranberry Powder. It effectively maintains healthy gut and vaginal microbiomes while providing unique 4-In-One Support.\*\*

# Total Gut Restoration™

RECONDITION | REINFORCE | REBUILD

## LEAKY GUT

Leaky gut occurs when cracks or holes develop in the lining of the intestinal tract. These holes allow toxins and unwanted particles to enter into your blood stream and weaken your immune system. If you have leaky gut, it is important to follow an approach that addresses the key layers of a healthy gut. The Total Gut Restoration system can help fix your gut in 3 simple steps.

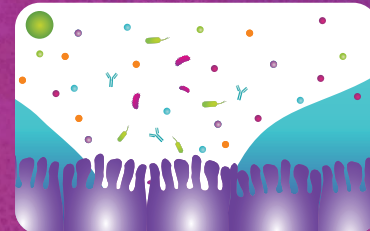

## STEP ONE: RECONDITION

Reconditioning the gut changes the environment so that it favors your beneficial gut bacteria. MegaSporeBiotic™ can change this environment by changing the acidity in the intestines, limiting the presence of harmful bacteria, and producing metabolites that feed beneficial bacteria.

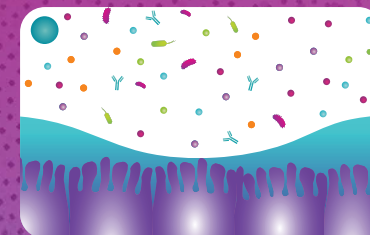

## STEP TWO: REINFORCE

The gut microbiome is a very dynamic environment so it's important to reinforce the beneficial changes from MegaSporeBiotic™ by feeding friendly keystone bacteria. MegaPre™ contains short-chain carbohydrates, known as oligosaccharides, that have been shown to selectively feed beneficial bacteria and enhance gut restoration.

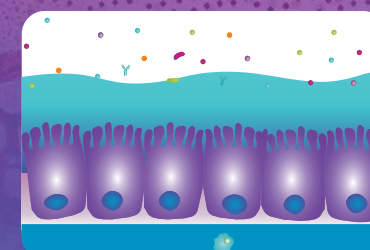

## STEP THREE: REBUILD

In a leaky gut, the protective mucosal layer breaks down and allows toxins to tear through the intestinal lining and into the blood stream. MegaMucosa™ contains key amino acids to help your body naturally rebuild your protective mucus layer and immune cells to help fend off any unwanted toxins during the rebuilding process.

## TOTAL GUT RESTORATION

A healthy gut microbiome is multi-faceted and relies heavily upon 3 fundamental aspects of gut health including the microbial population, physical structures, and immune function. For this reason, therapies that only address one layer are often ineffective. This system was uniquely designed to target all three of these areas to help you achieve Total Gut Restoration.

## STANDARD PROTOCOL

# Total Gut Restoration™

RECONDITION | REINFORCE | REBUILD

This is a four month plus program. Once this program has been completed, we recommend you follow the maintenance program below.

1

### MONTH 1

#### **MegaSporeBiotic™**

This is a pharmaceutical grade probiotic. It is important to slowly increase the dose over the next four weeks to reach the suggested daily dose.

**Week One:** Take 1 capsule every other day.

**Week Two:** Take 1 capsule daily.

**Week Three+:** Take 2 capsules daily.

To ensure the best results, take two capsules of MegaSporeBiotic once a day with a meal at any time of day.

2

### MONTH 2

#### **MegaSporeBiotic™**

Continue taking 2 caps together, with meals.

#### **MegaPre™ Powder**

Increase microbial diversity / Reinforces microbial changes. We are going to titrate up to the standard dose.

**Week One:** ½ scoop daily, mixed with at least 250ml water.

**Week Two+:** 1 full scoop daily, mixed with at least 250ml water.  
**OR**

#### **MegaPre™ Capsules**

**Week One:** Take 3 capsules daily, with or without a meal.

**Week Two+:** Take 6 capsules daily, with or without a meal.

3

### MONTH 3

#### **MegaSporeBiotic™**

Continue taking 2 caps together, with meals.

#### **MegaPre™ Powder**

Continue taking one scoop daily, mixed with at least 250ml water. **OR**

#### **MegaPre™ Capsules**

Take 6 capsules daily, with or without a meal.

#### **MegaMucosa™ Powder**

Rebuild a healthy mucosal barrier/alleviate barrier dysfunction.

**Week One+:** One scoop daily, mixed with at least 250ml water.

**OR**

#### **MegaMucosa™ Capsules**

**Week One:** Take 3 capsules daily, with or without a meal.

**Week Two+:** Take 6 capsules daily, with or without a meal.

4

### MONTH 4 (& THEREAFTER)

#### **MegaSporeBiotic™**

Continue taking 2 caps together, with meals.

#### **MegaPre™ Powder**

Continue taking one full scoop daily, mixed in at least 250ml water. **OR**

#### **MegaPre™ Capsules**

Take 6 capsules daily, with or without a meal.

#### **MegaMucosa™ Powder**

Continue taking one scoop daily, mixed with at least 250ml water.

**OR**

#### **MegaMucosa™ Capsules**

Take 6 capsules daily, with or without a meal.

5

### MAINTENANCE PROGRAM

One to two months after all symptoms have corrected begin your initial maintenance program.

Continue taking all three products in #4 above, but reduce **MegaSporeBiotic™** to 2-3 times a week and **MegaMucosa™** and **MegaPre™** to once a week.

FEBRUARY 2023

# Whole-istic health begins in the microbiome

Backed by Novonesis, a biotech world leader, we control every step of the innovation and formulation process, from strain discovery to final product.

## **Our commitment to enhancing traditional healthcare and unlocking the full potential of the microbiome is evident**

We support clinicians in differentiating their practice by furthering their knowledge of the microbiome and providing resources that expand to patient care, with:

- ✓ Enhanced education through webinars, guides and clinical research
- ✓ Holistic health and wellness based on science you can trust
- ✓ Protocols to support your practice
